## Summary

---

Aspiring Data Science and Software Development student with strong proficiency in Java, Python, and web technologies. Experienced in building full-stack web applications and machine learning projects, with internships demonstrating practical skills in real-world problem-solving. Passionate about leveraging data and technology to create impactful solutions and continuously improve through hands-on projects and learning.

## Education

---

- **Vignan's Institute Of Information Technology, Duvvada** 2023 – 2027  
*B.Tech in Computer Science and Engineering – Data Science* CGPA: 9.3 / 10
- **Narayana Junior College, Vijayawada** 2021 – 2023  
*Intermediate (MPC)*
- **Sri Takshasila Public School, Chillakallu** Completed 2021  
*Class 10 (SSC)*

## Technical Skills

---

- **Languages:** Java, Python, JavaScript, HTML, CSS
- **Tools:** Git, Vercel
- **Libraries:** NumPy, Pandas, Matplotlib

## Projects

---

- **ScholarHunt**  
Developed a scholarship-finding platform that classifies opportunities based on nationality, simplifying search experience by applying dynamic filters and eligibility rules.  
*Technologies: HTML, CSS, JavaScript, Python*
- **Image Classification**  
Implemented an image classification model using machine learning techniques, using supervised learning to categorize images based on features.  
*Technologies: Python, NumPy, Pandas, Matplotlib*

## Certifications

---

- Python Essentials – Cisco Networking Academy
- Web Development – Cisco Networking Academy
- Data Analytics – Eduskills
- Java Full Stack – Eduskills
- Internship Certificate – VaultOfCodes
- Solutions Architecture Job Simulation – Forage

## Achievements

---

- Secured 1st Rank in First Semester at Vignan's Institute of Information Technology

## Internships

---

- **VaultOfCodes Internship** June 1, 2025 – July 1, 2025
  - Developed a To-Do List web application implementing task management features.
  - Created a Recipe Maker app to help users find and save recipes efficiently.
  - Built a Portfolio Website showcasing projects and skills using HTML, CSS, and JavaScript.
- **ApexPlanet Internship (Currently ongoing)**
  - Developed a Contact Form for user interaction and feedback.
  - Built a To-Do List application to manage daily tasks efficiently.
  - Created a Joke and Quiz Game using API extraction to fetch dynamic content.
  - Currently working on building a comprehensive portfolio integrating all projects and tasks.
